1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Larry Baker (Reg. No. 39,593) on September 29, 2006. Mr. Baker agreed to canceled newly added independent claim 21 in order to place the application in condition for allowance.

2. **Please amend the claims as follows:**

**Cancel claim 21.**

3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 10 as amended includes the limitations of the "housing" and "sub-housing", which in combination with other limitations of any of claims 1 and 10 are not taught by the prior art of record, including the prior art references applied in the previous Office Action dated July 5, 2006, Clark et al. (4,757,389), Wang (6,111,244), Motamed (6,327,047), Selby (5,404,232), and Fukushi (6,226,105), alone or in combination.

Claims 3-9 depend on claim 1. Claims 12-15 depend on claim 10.

Reasons for allowance for claim 19 and 20 given in the previous Office Action dated July 5, 2006 are still valid and are repeated below.

Claim 19 and its dependent claim 20 is allowable over the prior art of record, including the references discussed for claims 1 and 10 above. Those references each disclose one or more but not all limitations of claim 19, such that when combined, they may provide a structure of a multifunction device somewhat similar to the structure of the device of claim 19. However, these references, alone or in combination, do not teach the claimed structure including the "sub-housing" of the color flatbed scanner supported in the "housing", and the positional relationship of the housing, the sub-housing, the calibration targets, etc. Fukushi (6,226,105), the reference closest to the claimed "housing", (Fukushi discloses that a flat bed scanner and a printer are advantageously placed in the same housing, see col. 2, lines 37-40, col. 3, lines 49-55, Fig. 2) does not disclose a sub-housing of a scanner having a structure as that defined in claim 19. Thus, the feature of the sub-housing in the housing, in combination with other limitations of claim 19, is not taught by the prior art of record, alone or combined.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheukfan Lee whose telephone number is (571) 272-7407. The examiner can normally be reached on 9:30 a.m. to 6:00 p.m., Mon-Fri.
